

CUP ANCHOR

An AISI 316 Stainless Steel Anchor Cup is a premium, heavy-duty swimming pool accessory designed to securely mount racing lane ropes, safety float lines, and competition equipment directly into pool walls.

FEATURES:

- Most high-end cups feature a retractable or hinged hook arm.
- Optimized for concrete pool setups.
- Engineered to sit 100% flush with the finished pool wall (plaster, tile, or pebble finish).

MATERIALS:

- AISI 316 grade stainless steel.
- Maximum Corrosion Resistance.
- Most high-end cups feature a retractable or hinged hook arm.
- High-Tension Load Capacity
